## **Amendments to the Abstract**

Please amend the Abstract to read.

- -- The invention refers to a method for indicating the current status of a removable media device (4)-provided for being loaded with at least one removable medium (5), and being connected to a device (1)-for reading and/or writing AV storage media. The method has the steps of
- checking the type of user input upon occurrence of user input,
- keeping the status of the removable media device (4)-if the type of user input is not related to the removable media device (4),
- else checking whether a characteristic feature of the at least one removable medium (5) has changed,
- keeping the current status if the characteristic feature of the at least one removable medium (5)-has not changed, and
- else updating the status.
